

ATTENTION RESIDENTS

- In an effort to reduce the occurrence of rusty water in Lakeside Avenue, Worcester DPW&P Water Operations will be conducting a high velocity flushing program on Friday, July 8, 2022.
- The operation will take place between the hours of 9:00 AM and 3:00 PM.
- This approach to flushing will create very rusty water while the hydrants are flowing, therefore, it is highly recommended that you avoid using water while flushing is in progress.
- While this flushing program will cause some temporary inconvenience, it should result in a short-term improvement to the water quality in your area.
- If you have any questions about this program, please call Worcester DPW&P Customer Service at 508-929-1300.
