

☀️ Stay Safe During This Week's Heat Wave! ☀️

Please note: WHA residents will be receiving a robocall with the following important information.

A heat wave is expected this week, and we want all our residents to stay safe and cool.

💧 Water spray zones have been set up at our family housing sites to help beat the heat.

If you're looking for a nearby cooling area, please contact your Property Management Office for more information.

✅ Tips to Stay Safe:

- ➡️ Stay hydrated – Drink plenty of water throughout the day
- ➡️ Avoid outdoor activities during peak heat hours (typically 11 AM–4 PM)
- ➡️ Check in on neighbors, especially seniors and those with health concerns

Thank you for helping keep our communities safe and healthy this summer!
